## EDUCATION

---

Indian Institute of Information Technology (IIIT) Bhopal  
B.Tech in Electronics and Communication Engineering

2021 – 2025  
CGPA: 7.77

## EXPERIENCE

---

### Freelance Developer

May 2025 – Present

- Delivered two complete **full-stack applications**, including one solo project and one collaborative build.
- Developed a full-stack [E-Rikshaw](#) showroom application using the **MERN** stack with complete admin tools.
- Built product listing, enquiry submission, and an update-ready admin dashboard with secure API handling.
- Collaborated on a [Doctor-Portfolio](#) website featuring a 24-hour **auto-expiring story** update system.
- Developed an **Appointment Booking** flow enabling patients to schedule, modify, and confirm visits efficiently.

## PROJECTS

---

### Job Posting ↗ | React.js with Vite, Node.js, Express.js, MongoDB

[Live](#) ↗

- Enabled **HR** users to **create, update, and delete job listings**, and to view and manage up to **100+** candidate applications, improving hiring workflow efficiency.
- Implemented **candidate features** to apply for **jobs**, **subscribe for updates**, and submit **platform reviews**, resulting in over 40 successful job applications and **20+ feedback** entries during testing.
- Integrated **automated email notifications** via nodemailer, sending alerts to subscribed candidates when new jobs are posted or application statuses are updated, delivering **100+** verified emails successfully.

### Vibe-Together ↗ | Next.js, Node.js, Express.js, MongoDB

[Live](#) ↗

- Built a real-time **chat system** handling over **120** active users at once, using nextjs with a separated node and Mongo backend for stable multi-device communication.
- Implemented synced **group music** sessions where up to **5+** users listen together, **streaming embedded youtube** tracks while maintaining accurate playback timing across all clients.
- Created a **personal music library** system letting **users** add, edit, and organize **200+ youtube-url** based songs, along with a friend network supporting seamless interaction between connected users

## TECHNICAL SKILLS

---

### Programming Languages:

C++, Java, JavaScript

### Frontend Development:

HTML, CSS, JavaScript, React.Js

### Backend Development:

Node.Js, Express.Js, SpringBoot

### Databases:

MongoDB, MySQL, PostgreSQL

### Cloud Hosting:

AWS, Vercel, Render

### Course Work:

DSA, DBMS, OOP

### Developer Tools:

Git, GitHub, VS Code, Cursor AI

## CERTIFICATES

---

- **React.js Certification**, Simplilearn (Completed Oct 2025) Proficient in building interactive **UIs** with **React.js**, including **components, hooks, state management**, and **API integration**.
- **Node.js Certification**, Simplilearn (Completed Oct 2025) Skilled in **server-side JavaScript, event-driven architecture**, and **scalable backend development**.

## ACHIEVEMENTS

---

- Solved **200+** **DSA** problems in [LeetCode](#), showcasing proficiency in **DSA** concepts.
